

Archives Committee Report 10/13/2006

I will be unable to attend the board meeting so I am sending my report to Bao to post.

I was given release time to work on the archives between May 19 and August 18. I spent all day each Friday working at sorting and filing new materials that had arrived. Remember the NC Archives will be closed for renovation soon so be sure and call before visiting!

The archives web page is also up. I have started with text files. They include a brief history of the organization, a finding aid for the organization's papers and a list of presidents. The early years had already been compiled so it was just a matter of updating and putting paper documents onto the computer.
