

Public Library Section Report:

We are in the process of planning a mini conference to be held in western, eastern and central North Carolina in the Spring of 2011. In an effort to attract a high attendance, the mini conference will include a programs on a variety of topics including circulation issues, Reader's Advisory, safety, use of volunteers,, publicity and marketing. In addition, there are several workshops planned for this fall: 1) a field trip/workshop centered around digitization; and 2) a program on marketing.

The Genealogy & Local History committee had a table and the trip-tik at High Point Public Library's Genfest.
