

Technology and Trends Roundtable Report
Executive Board Meeting
October 7, 2006

The Executive Board met by conference call on October 7, 2006. The TNT Listserv has been re-activated. The goals of the listserv are to:

- 1: To provide dialogue among members about new technologies that are available.
- 2: To provide a place for members to receive help on technology issues.
- 3: To provide a "technology of the month information" where members can discuss a certain technology.
- 4: To provide a place for members to give input on types of programs they would like the TNT Roundtable to sponsor.

The Board is looking into having two programs one in December and in the Spring of 2007.

Respectfully Submitted,

Beth Bernhardt
Chair – TNT Roundtable
